

# Nov 18 Price Change (PC) vs No Price Change Simulations (NPC)

Braedyn Au

- All simulated with 1000 traders, 100 stocks, for 1000 time steps using the same algorithms
- Price Change (PC): change in Hurst index of stock proportional to number of stocks moved
- No price change (NPC): constant Hurst index
- Causal Cascades: algorithm that traces trading activity from one portfolio to another based on trading overlapping stocks
- Stock Cascades: temporally separated cascades of an individual stock, with all stock cascades compiled in these distributions

- Maximum time effect (Max Eff): maximum time a single trading event can impact other trades to be considered part of the same cascade
- Minimum down time: minimum amount of queissance time for a cascade to end

# Causal Cascades

PC Causal Cascades (duration) | Max Eff: 1 | Min Down Time: 2

NPC Causal Cascades (duration) | Max Eff: 1 | Min Down Time: 2

PC Causal Cascades (duration) | Max Eff: 2 | Min Down Time: 1

NPC Causal Cascades (duration) | Max Eff: 2 | Min Down Time: 1

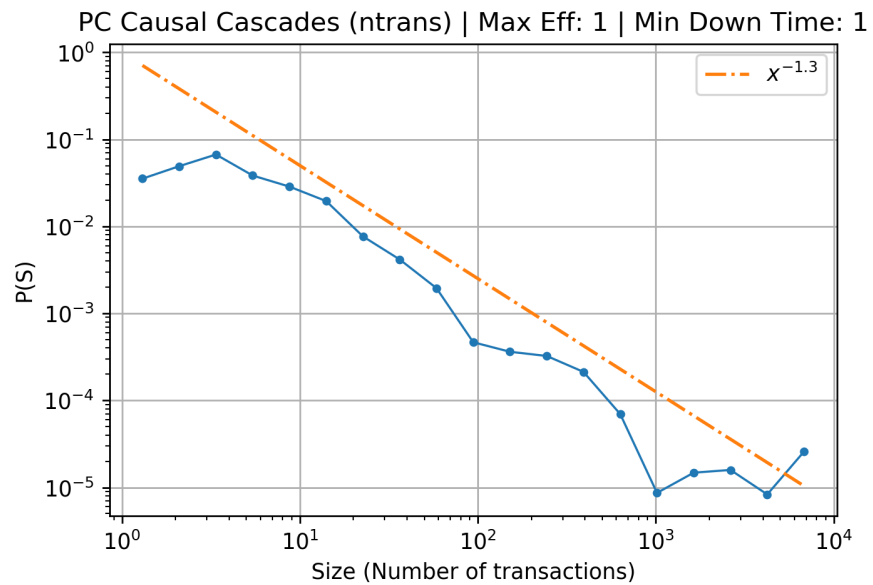

PC Causal Cascades (duration) | Max Eff: 2 | Min Down Time: 2

NPC Causal Cascades (duration) | Max Eff: 2 | Min Down Time: 2

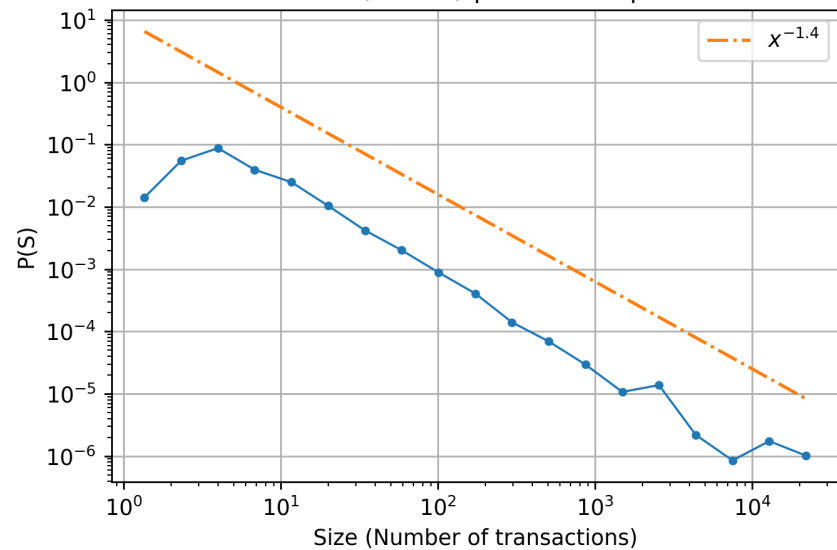

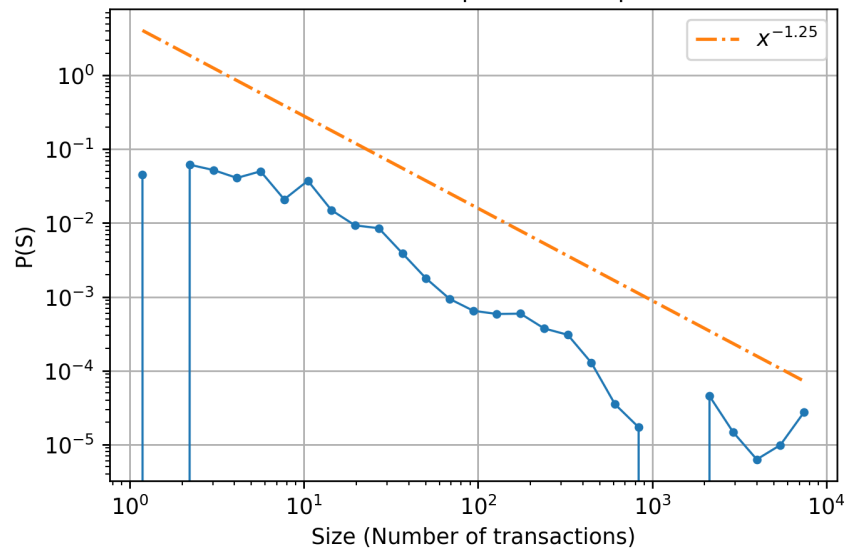

PC Causal Cascades (ntrans) | Max Eff: 1 | Min Down Time: 2

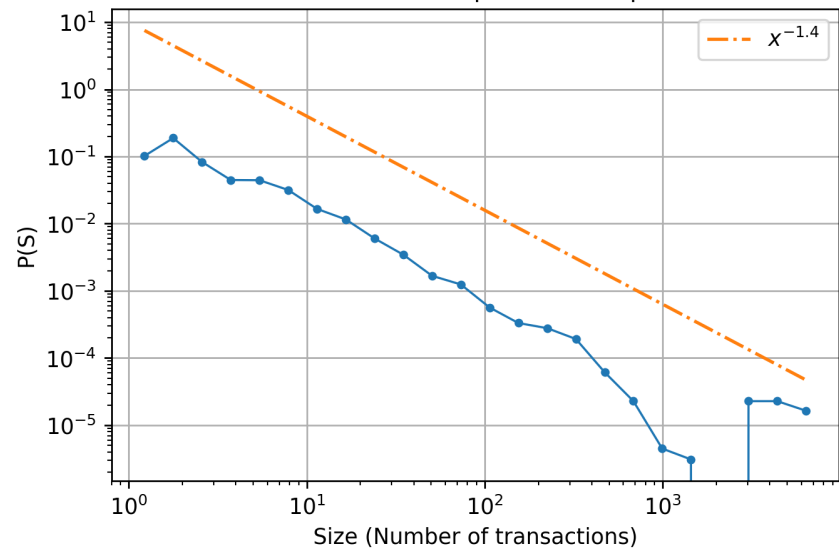

NPC Causal Cascades (ntrans) | Max Eff: 1 | Min Down Time: 2

PC Causal Cascades (ntrans) | Max Eff: 2 | Min Down Time: 1

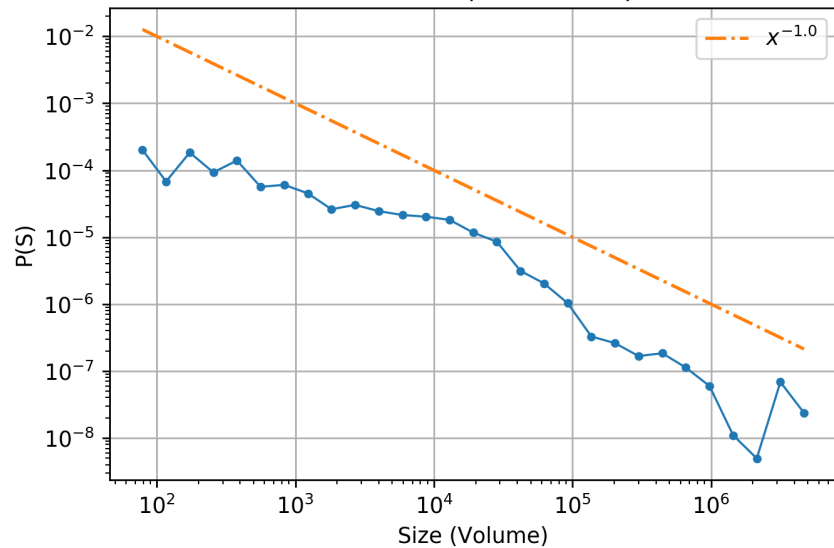

NPC Causal Cascades (ntrans) | Max Eff: 2 | Min Down Time: 1

PC Causal Cascades (ntrans) | Max Eff: 2 | Min Down Time: 2

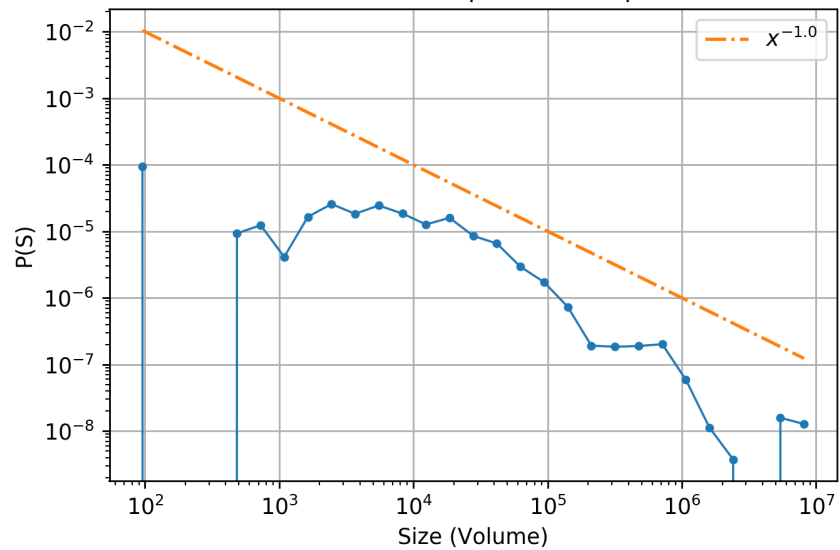

PC Causal Cascades (volume) | Max Eff: 1 | Min Down Time: 1

NPC Causal Cascades (volume) | Max Eff: 1 | Min Down Time: 1

PC Causal Cascades (volume) | Max Eff: 1 | Min Down Time: 2

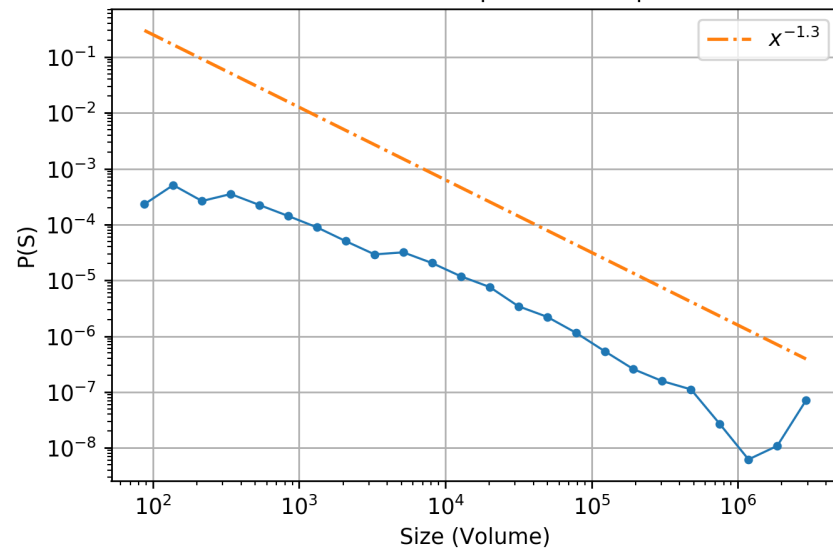

NPC Causal Cascades (volume) | Max Eff: 1 | Min Down Time: 2

PC Causal Cascades (volume) | Max Eff: 2 | Min Down Time: 1

NPC Causal Cascades (volume) | Max Eff: 2 | Min Down Time: 1

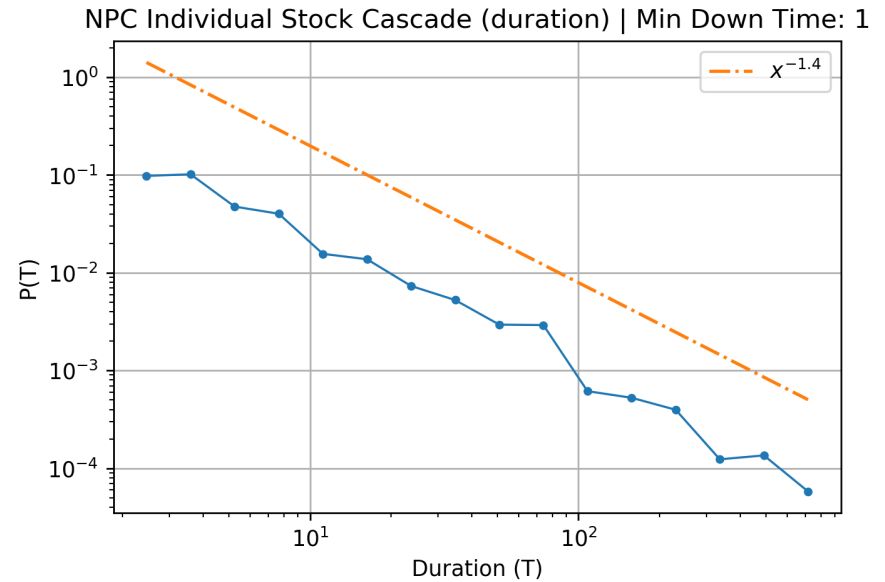

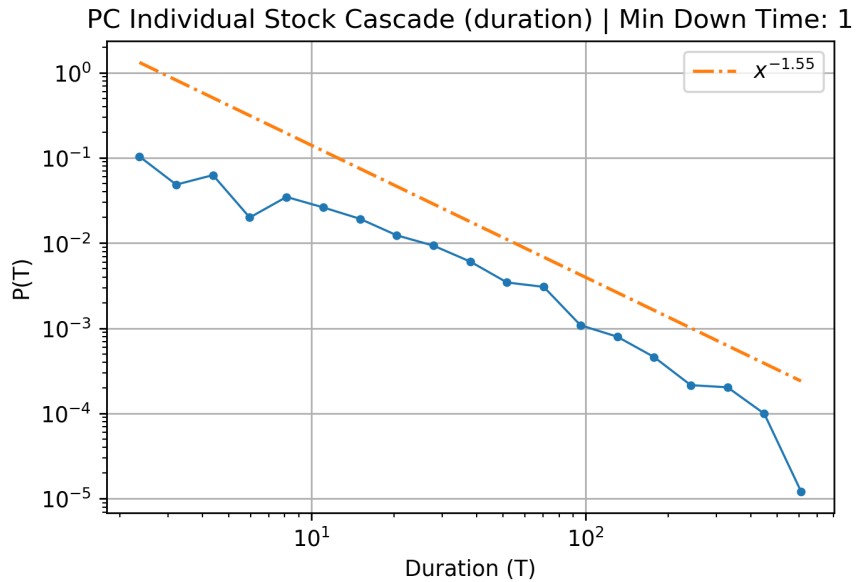

PC Causal Cascades (volume) | Max Eff: 2 | Min Down Time: 2

NPC Causal Cascades (volume) | Max Eff: 2 | Min Down Time: 2

# Stock Cascades

PC Individual Stock Cascade (duration) | Min Down Time: 2

NPC Individual Stock Cascade (duration) | Min Down Time: 2

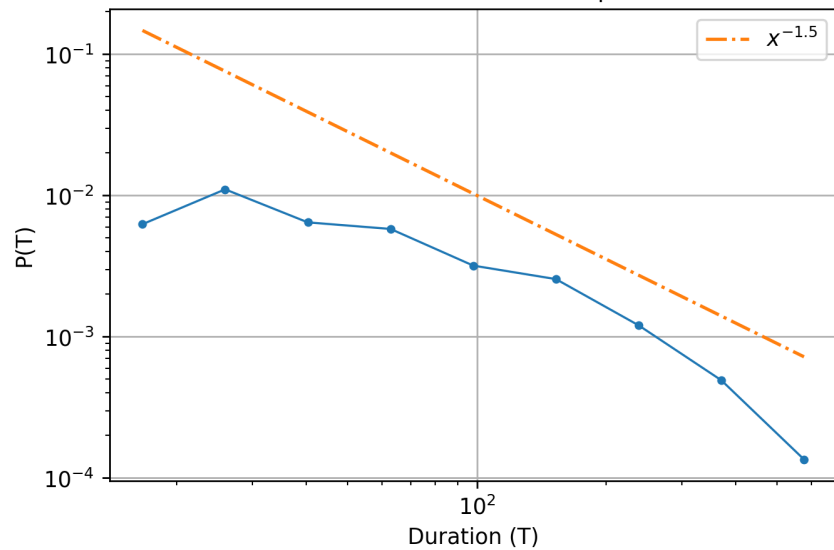

PC Individual Stock Cascade (duration) | Min Down Time: 5

NPC Individual Stock Cascade (duration) | Min Down Time: 5

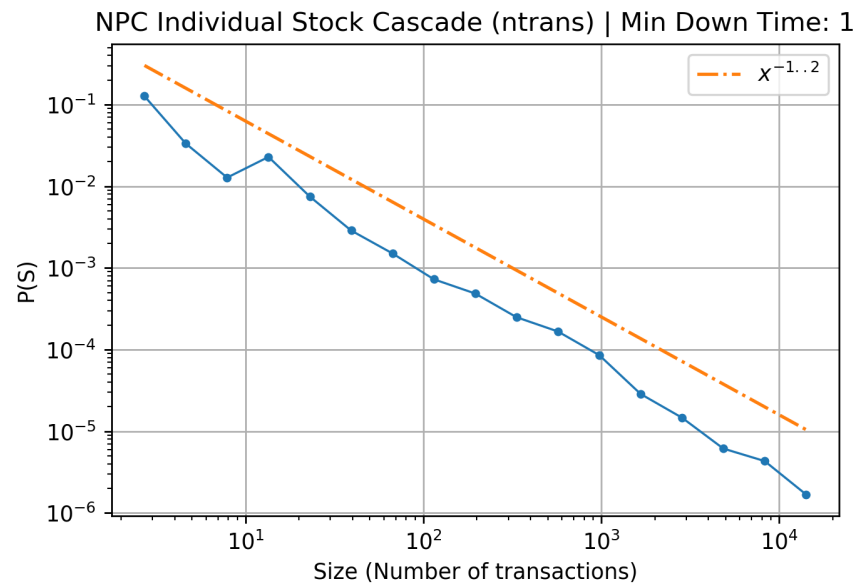

PC Individual Stock Cascade (duration) | Min Down Time: 10

NPC Individual Stock Cascade (duration) | Min Down Time: 10

PC Individual Stock Cascade (ntrans) | Min Down Time: 2

NPC Individual Stock Cascade (ntrans) | Min Down Time: 2

PC Individual Stock Cascade (volume) | Min Down Time: 5

NPC Individual Stock Cascade (volume) | Min Down Time: 5

PC Individual Stock Cascade (volume) | Min Down Time: 10

NPC Individual Stock Cascade (volume) | Min Down Time: 10
